Results-driven Software Engineer with 5+ years of experience designing, developing, and delivering scalable, secure, and high-performance web applications and cloud solutions. Skilled in full-stack development, microservices architecture, cloud platforms, DevOps practices, and data-driven decision making. Passionate about building reliable products that solve real-world problems.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Jan 2022 – Present

TechNova Solutions, San Francisco, CA

- Designed and developed scalable microservices using Java, Spring Boot, and Node.js deployed on AWS, serving 1M+ users.
- Architected event-driven systems using Kafka and RabbitMQ to handle high-throughput data pipelines.
- Led a team of 5 engineers in an Agile environment, delivering features in 2-week sprints with high code quality.
- Implemented CI/CD pipelines using Jenkins, GitHub Actions, and Docker, reducing deployment time by 60%.
- Optimized PostgreSQL and MongoDB data models and queries, improving API response time by 40%.

Software Engineer

Jun 2019 – Dec 2021

InnoSoft Technologies, Austin, TX

- Developed RESTful APIs and full-stack features using React.js, Node.js, Express.js, and PostgreSQL.
- Integrated third-party services including Stripe, Twilio, and SendGrid to expand application capabilities.
- Implemented Redis caching and optimized backend queries to improve reliability and performance.
- Participated in code reviews, unit testing, and performance testing.

Associate Software Engineer

Jul 2017 – May 2019

DataPeak Systems, Bangalore, India

- Built and maintained web applications using Java, Spring MVC, JSP, and MySQL.
- Fixed production defects, optimized existing modules, and enhanced application security.
- Worked closely with QA teams to ensure proper testing and bug resolution.

PROJECTS

SmartTask – Project Management Platform

React.js, Node.js, MongoDB, AWS S3, Socket.io

Real-time project management platform with task tracking, Kanban boards, team chat, file sharing, and role-based access control.

FinTrack – Personal Finance Dashboard

Spring Boot, PostgreSQL, Chart.js

Secure finance dashboard connecting to bank APIs, categorizing transactions, and providing interactive spending insights.
