Education

VIT-AP University Sep 2022 – May 2026
B.Tech in Computer Science and Engineering - CGPA: 9.13

Krishna Chaitanya Junior College June 2020 – Apr 2022
Intermediate (12th) MPC - Percentage: 85.6

Roshini Ratnam EM High School Jun 2019 – Apr 2020
10th Standard - Percentage: 97.6

Projects

Cardio Vascular Disease Analysis and Prediction  [GitHub](#) 

- Developed deep learning models using custom CNN and pre-trained VGG16 architectures for cardiovascular disease prediction from ECG images, optimized through GridSearchCV for improved accuracy.
- Deep Learning Models: CNN, VGG16

BookMyTrack  [GitHub](#) 

- Developed an inclusive and user-friendly railway reservation system enhancing accessibility, gender options, group/family booking, and intelligent lower berth allocation for elderly passengers.
- Web Technologies: HTML, CSS, Javascript

Tic Tac Toe Game  [GitHub](#) 

- Built a console-based Java Tic-Tac-Toe game using the Builder Design Pattern and SOLID principles to ensure modular design, reusability, and easy maintenance.
- Tools: Java, Low-Level Design

Technical Skills

Languages: Java, SQL

Web Technologies: HTML5, CSS3, JavaScript

Tools: Git, GitHub

Soft skills: Communication, Collaboration, Problem-solving, Adaptability, Initiative, Analytical-thinking, Leadership, Teamwork, Time management.

Certifications

◦ AWS Certified Cloud Practitioner [Link](#) 

Publications

Beyond Daylight: Impact of Satellite Inclination on Solar Panel Performance in Space-Based Power Systems - IEEE Xplore [Link](#) 

- Presented advanced techniques for real-time sensor data analysis and regression modeling to optimize solar energy capture and voltage management in space-based power systems.

Extracurriculars

Marketing Member - Innovators Quest Club Oct 2023 – May 2024

V-Guide Member - Computer Society Of India (CSI) Aug 2024 – May 2025

Achievements

◦ Presented "Hand Gesture-based Controlled Car" project at VIKAS Expo
